Monthly Equity Roundup – October 2022

October 2022 – Review

Domestic equity markets rose as companies across multiple sectors reported upbeat earning numbers for the quarter ended Sep 2022. Hopes that domestic inflationary pressures would come down gradually also added to the gains. Market participants also remained hopeful that U.S. Federal Reserve and other major central banks across the globe would consider slowing down the pace of rate hikes in the coming months given the worries of a global economic slowdown and recession. However, persisting fears of a gloomy economic outlook capped the gains. According to data from the National Securities Depository Ltd, foreign portfolio investors were net seller of domestic stocks worth Rs. 813.81 crore in Sep 2022 compared with net sell worth Rs. 7,643.01 crore in Sep 2022 (investment route through stock exchange). Domestic mutual funds remained net buyer in the equity segment to the tune of Rs. 7,782.350 crore in Oct 2022 (updated till Oct 17). Domestic equity markets rose during the month under review as key domestic headline indices S&P BSE Sensex and Nifty 50 gained more than 5%. The market rally was broad based as gains were witnessed in the mid cap segment, small cap segment and in most of the sectoral indices.

Domestic equity markets commenced the month on a positive note following weak economic data from U.S. Weak U.S. economic data was good news for the markets as it led to hopes that the U.S. Federal Reserve might consider slowing down the pace of rate hikes moving ahead. Data showed that the pace of U.S. manufacturing activity grew at its slowest pace in 30 months in Sep 2022 which eased aggressive monetary policy tightening by the U.S. Federal Reserve. Market sentiments were further boosted after wholesale price index based inflation plummeted to an eighteen month low in Sep 2022. Market participants remained optimistic on the upcoming earnings season for the quarter ended Sep 2022 as some prominent companies in the IT sector kicked off the earnings season on a strong note. Gains continued to be sustained as flagship companies in the banking, IT and FMCG sector came out with upbeat earning numbers which provided stability to market. Market participants remained optimistic about the India growth story despite worries over the near term global economic outlook.

Markets rose further on expectations that the U.S. Federal Reserve may slow down the pace of rate hikes in the coming months amid worries of a slowdown in the world's largest economy and that other central banks across the globe may follow suit. Reports indicated that some officials of the U.S. Federal Reserve were at unease regarding the pace of monetary policy tightening. Markets celebrated the last day of Oct 2022 with Sensex and Nifty surpassing the psychological levels of 60,000 and 18,000 respectively. However, further gains were capped as market participants stuck to their gloomy outlook for the global economy. Concerns over the impact of aggressive monetary policy tightening on global growth weighed on the market sentiment. Worries of a slowdown in China due to renewed concerns over COVID-19 pandemic kept markets under pressure. Market participants also awaited the outcome of the U.S. Federal Reserve monetary policy review and Bank of England monetary policy review for cues on the global interest rate trajectory. On the sectoral front, all the sectors closed in the green barring S&P BSE FMCG which fell 0.30% over the month. S&P BSE PSU was the top gainer over the month rising by 8.42% followed by S&P BSE Bankex and S&P BSE Capital Goods which rose 7.29% and 6.56% respectively. Banking sector rose on the back of upbeat earning numbers for the quarter ended Sep 2022. State run banks were also in focus on account of improving asset quality, higher coverage ratios, and relatively better balance sheets. Capital goods sector gained on account of upbeat domestic demand due to the festive season.

Global Economy:

U.S. equity markets rose as multiple big-name companies in U.S. reported upbeat earning numbers for the quarter ended Sep 2022. Gains were extended after core consumer price growth in U.S. accelerated less than expected in Sep 2022 and the U.S. economy rebounded more than expected in the second quarter of 2022. Reports suggesting that some U.S. Federal Reserve officials are at unease with the aggressive pace of rate hikes also added to the gains. This led to expectations that the U.S. Federal Reserve may slow down the pace of rate hikes and might pivot to small rate hikes from Dec 2022.

Economic Update

Retail inflation accelerated to 7.41% in Sep 2022

Government data showed that Consumer Price Index based inflation accelerated to 7.41% in Sep 2022 from 7.00% in the previous month and 4.35% in Sep 2021. Inflation reached its highest level in five months during the latest period. Retail inflation thus stayed above the upper tolerance level of the Reserve Bank of India's retail inflation target of 6% for the ninth consecutive month.

IIP contracted 0.8% in Aug 2022

Government data showed that the Index of Industrial Production (IIP) contracted 0.8% in Aug 2022 compared with a growth of 2.2% in the previous month and 13.0% rise in the same period of the previous year. IIP witnessed its first contraction since Feb 2021. For the period from Apr to Aug of FY23, IIP growth slowed to 7.7% from a growth of 29.0% in the same period of the previous fiscal.

WPI eased to 10.70% YoY in Sep 2022

India's Wholesale price index-based inflation (WPI) eased to 10.70% YoY in Sep 2022 from 12.41% rise in Aug 2022 and 11.80% increase in the same period of the previous year. The growth of WPI Food index eased to 8.08% in Sep 2022 from 9.93% in Aug 2022 and 9.28% in Jul 2022.

Trade Deficit widened to \$25.71 billion in Sep 2022

India's exports and imports rose 4.82% and 8.66% to \$35.45 billion and \$61.16 billion, respectively in Sep 2022. The trade deficit rose to \$25.71 billion in Sep 2022 from \$22.47 billion in Sep 2021.

India's fiscal deficit stood at 37.30% of the Budget Estimates (BE) from Apr to Sep of FY23

Government data showed that India's fiscal deficit stood at 37.30% of the Budget Estimates (BE) from Apr to Sep of FY23. The revenue deficit stood at 31.40% of Budget estimate. Total receipts stood at Rs. 12.04 lakh crore or 52.7% of the budget target as compared to 55.6% in the corresponding period of the previous year. Total expenditure stood at Rs. 18.24 lakh crore or 46.2% of the budget estimate as compared to 46.7% in the corresponding period of the previous year.

Index of eight core industries grew 7.9% in Sep 2022

Government data showed that the combined index of eight core industries grew 7.9% in Sep 2022 as against 4.1% rise in Aug 2022 and 5.4% in the year ago period. Core output during Apr-Sep of FY23 rose 9.6%, slower than 16.9% a year ago.

Outlook

Moving ahead domestic equity markets will be dictated by the ongoing quarterly earnings season. The Monetary Policy Committee will hold a special meeting on Nov 3 where it will discuss as to why retail inflation remained above 6% for three consecutive quarters since Jan 2022. A report will be prepared on the same and sent to government that will entail the reasons behind high inflation and remedial pressures taken accordingly to bring down prices in the country. The outcome of the meeting is expected impact the markets as it will provide some cues regarding the domestic interest rate trajectory. Key domestic macroeconomic indicators and automobile sales numbers will also be closely tracked as the same will dictate the resiliency and the sustainability of the Indian economy. In addition to the above mentioned factors, global trends, crude oil prices, transaction trends by foreign institutional investors and the movement of the rupee against the greenback will also have its bearing on the markets.

Bond yields started the month on a rising note after state development loans auction saw higher-than-expected cut-off yields. Yields further rose after the India's government bond was not immediately included in a key global index. Further weekly government debt auction, added to the debt supply concerns. Yields majorly rose during the month tracking surge in the 10 year U.S. Treasury yields that crossed 4%. Losses increased on stronger U.S. dollar index that triggered the Indian rupee to touch record low. Movement in yields were also triggered by global crude oil prices that crossed \$100 initially during the month but fell thereafter and closed with a marginal rise over the month.

However, losses were restricted, after minutes of the latest monetary policy meeting showed dovish view from some members, calming fears of aggressive rate hikes and retail inflation for Sep 2022 came in line with market expectations. Hopes that the U.S. Federal Reserve may slow down the pace of rate hikes in the coming months, trimmed losses further. Absence of government debt auction in the last week of the month also boosted market sentiments.

The central bank of India conducted auctions of 91-, 182- and 364-days Treasury Bills for a notified amount of Rs. 88,000 crore in Oct 2022 compared with Rs. 84,000 crore in the previous month. The average cut-off yield of 91-, 182- and 364-days Treasury Bills stood at 6.29%, 6.71% and 6.92%, respectively, during the month under review compared with the average yield of 5.85%, 6.34% and 6.55%, respectively in the previous month.

The RBI also conducted auction of state development loans (SDL) for a total notified amount of Rs. 71,850 crore (accepted amount was Rs. 70,450 crore), which is lower than the scheduled amount of Rs. 75,100 crore during Oct 2022. The average cut-off yield of 10 year SDL during Oct 2022 rose to 7.81% from 7.59% in the previous month. In addition, the RBI also conducted auction of government securities for a notified amount of Rs. 86,000 crore, for which the amount was completely accepted with no devolvement on primary dealers.

On the macroeconomic front, India's consumer price index-based inflation (CPI) rose to 7.41% in Sep 2022 as against 7.00% in Aug 2022 due to rising food prices. Consumer Food Price Index (CFPI) also rose to 8.60% in Sep as compared to 7.62% in Aug. Prices of daily commodities such as cereals and vegetables, which make up the largest component in the inflation basket, have risen over the last two years. India's Index of industrial output (IIP) contracted 0.8% YoY in Aug 2022 as against 13% rise in Aug 2021. As per the sectoral classification, manufacturing sector fell 0.7% YoY in Aug 2022 from 11.1% rise in Aug 2021. Mining sector fell 3.9% in Aug 2022 from 23.3% growth a year ago, while electricity rose 1.4% in Aug 2022 from 16% in Aug 2021. Exports and imports rose 4.82% and 8.66% YoY to \$35.45 billion and \$61.16 billion, respectively in Sep 2022. The trade deficit rose to \$25.71 billion in Sep 2022 from \$22.47 billion in Sep 2021.

Wholesale price index-based inflation (WPI) eased to 10.70% YoY in Sep 2022 from 12.41% rise in Aug 2022 and 11.80% increase in the same period of the previous year. The growth of WPI Food index eased to 8.08% in Sep 2022 from 9.93% in Aug 2022 and 9.28% in Jul 2022.

Liquidity conditions remained favorable during the month under review. Systemic liquidity remained in surplus but the average net India's banking system liquidity surplus contracted to Rs. 0.48 lakh crore in Oct 2022 as compared to Rs. 0.80 lakh crore in Sep 2022.

Spread Analysis

Yield on 5 & 10 year gilt securities rose 6 & 5 bps, respectively. Yield on 5 & 10 year corporate bond maturities also went up 7 & 89 bps, respectively. Difference in spread between corporate bond and gilt securities expanded 1 & 84 bps, respectively.

Global

On the global front, the European Central Bank raised key interest rates by 75 bps in its monetary policy review. The main refinancing rate was raised to 2.00% from 1.25%. The deposit facility rate was raised to 1.50% from 0.75%. The marginal lending facility rate was increased to 2.25% from 1.50%. The European Central Bank indicated more rate hikes in the coming months as inflation is expected to stay high for an extended period. The Bank of Japan maintained its key monetary policy stimulus and continued to provide interest rate guidance despite the dropping yen. The bank also decided to continue to purchase a necessary amount of Japanese government bonds without setting an upper limit so that 10-year JGB yields will remain at around zero percent. According to the National Bureau of Statistics, China's gross domestic product reported 3.9% YoY rise in the third quarter of 2022 as against 0.4% rise in the second quarter of 2022. The International Monetary Fund has cut its worldwide growth forecast for 2023 and warned that the global economy will suffer further next year. The global lender reduced its growth forecast for 2023 to 2.7% from 3.3%, while keeping the expectation for 2022 at 3.2% after a 6% increase in 2021.

Outlook

On Nov 02, the Federal Reserve raised its key rates by 75 bps as expected to 3.75 to 4%. However, the central bank noted that future rate hikes will "take into account the cumulative tightening of monetary policy, the lags with which monetary policy affects economic activity and inflation, and economic and financial developments. The change in forward looking statement indicated following recent reports that some officials are becoming increasingly uneasy about the pace of interest rate increases and the impact on the economy. Worries over faster rise in interest rates by the U.S. Fed in the near future may lead to rise in U.S. treasury yields, which may trigger movement in Indian bond yields. RBI held additional meeting of the Monetary Policy Committee for 2022-2023 on Nov 03, 2022 to deal with failure to maintain the inflation target. The meeting comes at a time when inflation has remained above 6% for nine consecutive months despite rate hikes of 190 bps in FY23. Market participants will also track any developments related to whether India is moving towards the end of rate hike cycle. Falling global crude oil prices are easing domestic inflationary pressures is likely to benefit the bond market.
